NIRT Wheat SRS Bias Log

| Tecator Model:_ | Serial # : | Location: | |
|-----------------|------------|-----------|--|
| | | | |

NOTE: Only results less than two weeks old and within a 5 F temperature range may be averaged. Results obtained after a slope or bias adjustment, SRS replacement, or NIRT repair or replacement cannot be averaged with results obtained prior to the change (also, the 5-Run correction can only be applied if five consecutive, valid runs are all positive or all negative). Every effort should be made to maintain the bias within the 0.05% Protein tolerance.
